

## Bar POS

For bars and nightclubs, the ability to quickly serve patrons drinks during peak times is critical to profitability. Ideal for bars and nightclubs, the Focus POS system helps bar and nightclub owners keep a pulse on what is happening at their establishment.

Our POS system allows bartenders to manage multiple tabs at once and easily repeat rounds with a single touch. Tabs can be easily opened or closed in seconds by simply swiping a customer's card or entering their name. Protect your business from fines and mitigate your risk to lawsuits with our integrated age verification system that scans an ID or drivers license to verify age. Safeguard your profits with advanced auditing and theft prevention capabilities that allow owners to monitor liquor shrinkage, analyze comps and voids, as well as identify cash drawer shortages. Easily generate a variety of detailed, real-time reports to keep track of sales, inventory, labor and promotions.
