Focus POS SYSTEMS

InnPoss
INNOVATIVE POINT OF SALE SYSTEMS, LLC

Table Service POS

From long wait times, to slow service and incorrect orders, a number of factors can lead to a poor experience at your restaurant. Focus POS helps busy restaurants manage table seating, increase table turnover and average ticket size to increase the profitability of their operations. Focus Table Service POS enables restaurants to optimize labor and streamline food preparation to ensure the best possible service.

Specifically designed for table service restaurants, Focus POS allows restaurant managers to keep a pulse on restaurant operations at all times. Easily manage seating and streamline every stage of the serving process to make sure customers receive the right meal at the right time. In seconds, send orders to the kitchen, bar or other stations in the restaurant from your POS system to improve order accuracy and customer service times. Meal-stage notifications let servers know the appropriate time to deliver drinks, appetizers, salads and entrees. Easily hold and reserve tables, split checks or take orders tableside with our Mobile POS solution.
